3. Home Rule Study Committee report - Dr. Mike Card

Mike Card, Chairman of the Home Rule Study Committee, reported that the other members of the Committee are Travis Letellier, Stacy Larson, Julia Hellwege and Matt Fairholm. Mr. Card reviewed the charge given to the Home Rule Study Committee along with the process used by the Committee. Mr. Card reported that the City currently governed by Dillon's Rule and explained the difference of Home Rule. Mr. Card reviewed advantages of Home Rule, the impact of Home Rule on the aldermanic form of government with the City Manager option and criticisms of Home Rule. Mr. Card reported that the Committee recommendation is to proceed with establishing an official Home Rule Charter Committee to enable the City to meet here-to-fore unforeseen challenges and to enable the Council to authorize even more responsive services to Vermillion Residents.

John Prescott, City Manager, reviewed the timeline for establishing a Home Rule Charter Committee and City Council action on the Committee's recommendation to bring a change in government to a vote. John reviewed the state statutes for elections noting that it is possible to meet the primary deadlines but would allow very little time for public education. John noted the general election would allow additional time for public input or a special election could be scheduled for after the general election.

Mr. Card and other members of the committee answered questions of the City Council on the report and Home Rule. The consensus of the City Council was to move forward with creation of a Home Rule Charter Committee noting the need for public input.

4. Educational session - Highway 50 drainage project - Jose Dominguez

Jose Dominguez, City Engineer, stated that, with the SD DOT planning a project on Hwy 50, the City had conversations with the DOT regarding drainage improvements as part of the project. Jose noted that the City hired a consultant to review the drainage in the Hwy 50 south ditch with the results being shared with the DOT who have indicated they would be willing to contract with the city to construct the improvements as part of the Hwy project. Jose noted that the DOT will require a final study to determine storm sewer pipe size and provide information needed for construction plans of the drainage improvements. Jose noted that the final study is due by May 1, 2020. Jose stated that the DOT will require the City to enter into an agreement regarding project cost sharing and future maintenance costs. Jose noted that, based on estimated project cost of \$1.2 million, the costs would be \$640k City and \$560k State. Jose answered questions of the City Council. Jose noted that to proceed he will need to work with an engineer to determine a contract for the project in order to have the report to the State by May 1st, noting that this contract would be brought to the City Council for approval. The consensus of the City Council was to authorize the City Engineer to move forward with engineering services agreement for future consideration.

8. New Business

A. First reading of Ordinance 1411 to amend Title XV, Land Usage; Chapter 150 Building Regulation; Section 150.02(B)(7) International Building Code to add roofing and siding as work requiring a permit

Farrel Christensen, Building Official, reported that the Vermillion Historic Preservation Commission approached staff and the City Council with a desire to require permits for siding and roof replacement. Farrel stated that the City's current codes exempt these type of projects from needing a permit and as a result makes it very difficult for the Historic Preservation Commission to advise property owners of the possible benefits of repairs consistent with the historic character of the property. Farrel stated that it was discovered that most first class cities in South Dakota do require permits for siding and roof replacement for all buildings. Farrel reported that the City has adopted both the 2018 International Building Code and the 2018 International Residential Code which, when adopted, there were exceptions for roof and siding replacement permits. Farrel stated that proposed Ordinance No. 1411 amends the International Building Code to remove the permit exception for roof and siding replacement. Farrel noted that for siding when more than 50% of any building wall surface is being replaced or repaired in any given 5-year period and for roof replacement when more than 50% of any building roof surface is being replaced or repaired in any given 5-year period. Farrel stated that a separate ordinance is needed to amend the International Residential Code, which is the next item on the agenda. Farrel noted that the proposed changes would add siding and roofing to the existing section which already requires a permit for replacement window work. Farrel stated that fees are proposed to be set by resolution with the second reading of the ordinances and are intended to keep permit costs low to the property owners while providing the benefits of City Inspectors to ensure the safety of the work and its compliance with building code. Discussion followed.

14-20

President Collier-Wise read the title to the above mentioned Ordinance and Alderman Hellwege moved adoption of the following Resolution:

BE IT RESOLVED that the minutes of this meeting shall show that the title to proposed Ordinance No. 1411 entitled An Ordinance to amending Title XV, Land Usage; Chapter 150 Building Regulation; Section 150.02(B)(7) International Building Code to add roofing and siding as work requiring a permit of the City of Vermillion, South Dakota has been read and the Ordinance has been considered for the first time in its present form and content at this meeting being a regularly called meeting of the Governing Body of the City on this 20th day of January, 2020 at the Council Chambers in City Hall in the manner prescribed by SDCL 9-19-7 as amended.

The motion was seconded by Alderman Holland. After discussion, the question of adoption of the Resolution was put to a vote of the Governing Body and 8 members voted in favor of and 0 members voted in opposition to the motion. President Collier-Wise declared the motion adopted.

B. First reading of Ordinance 1412 to amend Title XV, Land Usage; Chapter 150 Building Regulation; Section 150.03(B)(5) International Residential Code to add roofing and siding as work requiring a permit

Farrel Christensen, Building Official, noted that with the previous agenda item the City has adopted the 2018 version of both the International Building Code and the International Residential Code. Farrel stated that the adoption of both codes were made with exceptions for permits to be issued for roof and siding work. Farrel reported that the previous agenda item was to amend the International Building Code to require permits for roof and siding work. Farrel stated that proposed Ordinance No. 1412 would amend the International Residential Code to remove the building permit exception for roof and siding replacement.

15-20

President Collier-Wise read the title to the above mentioned Ordinance and Alderman Willson moved adoption of the following Resolution:

BE IT RESOLVED that the minutes of this meeting shall show that the title to proposed Ordinance No. 1412 entitled An Ordinance Title XV, Land Usage; Chapter 150 Building Regulation; Section 150.03(B)(5) International Residential Code to add roofing and siding as work requiring a permit of the City of Vermillion, South Dakota has been read and the Ordinance has been considered for the first time in its present form and content at this meeting being a regularly called meeting of the Governing Body of the City on this 20th day of January, 2020 at the Council Chambers in City Hall in the manner prescribed by SDCL 9-19-7 as amended.
