New Tap <input type="checkbox"/>	Size	New Tap <input type="checkbox"/>	Size	New Service <input type="checkbox"/>	Amps
New Meter <input type="checkbox"/>	Size			Voltage	Phase
Number of Meters				Temporary Service <input type="checkbox"/>	

ASBESTOS DECLARATION

By signing this form I understand that The South Dakota Department of Environment and Natural Resources must be notified of all building demolitions at least 10 working days in advance, even if asbestos is not present. Failure to comply with these requirements may result in enforcement actions, including fines and penalties. Both the building owner and the contractor share the responsibility of making sure these requirements are met.

Required Documents

Applications shall include the following documents, applications that are not accompanied with the required documents or approved for waived submission will not be processed:

Footing Plan: Complete dimensioned plan, including egress windows and doors, overhead doors and interior footings. Label and locate porches, patios, planters, AC units, garage, etc. Show stepped footings on sloped lots. Show size of footings and stem walls. Show footing depths, rebar and anchor bolt locations.

Elevation Plans: A drawing of the finished exterior of the structure. Minimum of two elevation views showing all openings, siding material, original and finished grade, roof pitch and type of roofing material.

Floor Plans: All rooms and spaces shall be labeled showing use, size and location of windows, doors and stairways. Drawings shall be provided for each level.

Site Plan: Show the entire parcel fully dimensioned with a north arrow. Distance to lot lines and other structures, impervious lot coverage, parking and street access. All plans shall be of sufficient clarity to indicate the location, size, shape and extent of the work proposed.

Fire Protection Systems: Shop drawings for the fire protection system shall be submitted to indicate conformance to this code, the construction documents shall be approved by the Fire Chief prior to the start of system installation.

Engineering Drawings: A drainage plan is required whenever lot coverage exceeds 50% impervious. A preliminary storm drainage study shall be submitted to the Engineering Department. The study shall follow the City's Storm Drainage Design Criteria. A site layout plan, grading plan and utility plan may be required.

Exception: The building official is authorized to waive the submission of construction documents and other data not required to be prepared by a registered design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

Permit Holder: Unless otherwise stated, the applicant is listed as the Permit Holder and is responsible to ensure that required inspections are completed. Any change in Permit Holder and/or owner/general contractor status must be submitted in writing to the Building Official.
