

Vermillion Light & Power Water Heater Rebate Program

The City of Vermillion is offering a \$3.00 per gallon rebate on the purchase of an electric water heater from a **Vermillion retailer or licensed plumber.**

- To qualify for the program, the water heater must have a capacity of at least 40 gallons and participating customers must allow the city to attach a load management receiver on each water heater.
- The load management receiver must be installed by a qualified electrician with a city and state license, and the electrician will receive a \$50.00 payment for the installation.
- The water heater rebate program does not include mobile homes for various reasons.

In addition to the water heater rebate, there is a wiring rebate up to \$50.00 available to customers who will be replacing their existing gas water heaters with electric. To qualify for this rebate, all wiring must be done by a qualified electrician with a city and state license.

For more information contact Monty Munkvold at 677-7073, email: montym@cityofvermillion.com, or visit our website at www.vermillion.us

Please return lower portion along with a copy of both receipts to: City Hall, 25 Center St . Vermillion, SD 57069
